CITY BRIDGE
FOUNDATION

SMALL
WOOD
TRUST

With support over 4 years from City Bridge Foundation and Smallwood Trust, our network meets regularly to share, support and collaborate.

Our work focuses on women from asylum-seeking, refugee and migrant backgrounds specifically looking at ways we can empower them to be more resilient, avoid destitution and have aspirations for a better future.

Access to Housing and better Mental Health are a key focus for us

This is what we're bringing to women in Hackney through this fund:

Akwaaba - developing an onward grants system for migrant women at risk of destitution, with the aim to increase stability, independence and capacity to be involved in the community

Filipino Domestic Workers Association - supporting our work to provide safe, alternative housing and rights education for women rescued from domestic servitude and continuing to campaign around #DomesticWorkIsWork

Hackney Doorways - secure the future of our existing Women's Shelter and aim to develop more quality temporary housing for single homeless women

Hackney Migrant Centre - sustaining our Housing and Destitution advice service providing specialist advocacy to help deliver complex housing and immigration support (short and longer term)

Hawa Trust - Supporting racialised women particularly those affected by domestic violence, disability, deprivation and poor literacy through advocacy, social and health activities

Middle Eastern Women & Society Organisation - developing our presence in Hackney to provide immigration, housing, domestic abuse and welfare advice to women from Middle Eastern and North African backgrounds

Micro Rainbow - increasing the hours of our women's "Move-On" support worker to empower women in temporary accommodation to become more independent and financially resilient

Project 17 - offering specialist advice to migrant women with children facing homelessness and severe poverty due to no recourse to public funding

AKWAABA
